

### **INSURANCE/PAYMENT POLICY**

For all insurance plans that **Ashby Park Pediatric Dentistry** participates with, we verify coverage guidelines with the insurance company. If not expected to be covered in full, a payment is due at the time of service. This is not a guarantee of payment from your insurance company for the balance.

We encourage you to know your specific plan benefits and policy guidelines. Listed below are recommendations to inquire about when obtaining benefit and policy information:

Does your insurance provide coverage for sealants? Which teeth? Age Limits?

How many fluoride treatments are covered per year? Age limits?

How many times per year are bitewing x-rays covered?

If a balance or credit remain after we receive payment from your insurance carrier you will receive a statement or refund within 30 days.

Thank you for your partnership in the care and development of your child's growth in a lifelong commitment to oral health.

Your friends at **Ashby Park Pediatric Dentistry**.
